

ROBIN FOX

(EXPERIENCE)

2014-2016 **GoodMojo / Tekmeca** - Front-End Intern

- Set up and modified Joomla based websites for GoodMojo's non-profit partners.
- Helped implement SQL databases and modified media queries for Joomla charter websites.
- Helped design and implement a mobile application for iPads used at the Chinatown Community Development Center to allow workers to obtain signatures from residents that received daily meals.
- Was responsible for the restructuring and redesign of GoodMojo's social services intranet application called Axiom.
- Separated all inline CSS from outdated HTML and ASPX code, as well as update all HTML markup to HTML5 standards within Axiom.
- Removed old inline CSS and modularized it using SASS with some BEM and SMACCS architecture.
- Updated HTML and CSS for the six provided applications within the Axiom system.
- Redesigned the login pages for Axiom and all the login pages for the applications within Axiom's system.
- Was in the planning stages of UI mockups for the new Axiom homepage as well as prototypes for the new UI.
